

Pally™ Smart Finder

Quick Start Guide

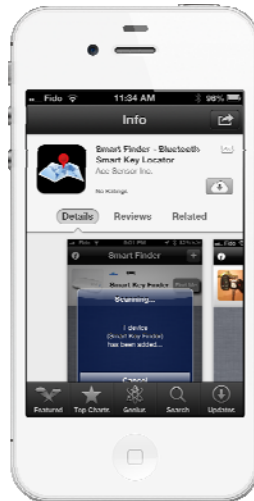

Box Contents:

- Pally Smart Finder with 2xAAAA batteries installed
- Metal key ring

Setup:

1. Download and install the free Pally Smart Finder app from the Apple App store or scan QR code below. You can also download it by visiting <http://PallyTech.com/SmartFinder>

2. Launch the Smart Finder app. If Bluetooth is off the app will prompt you to turn it on.

3. Follow these steps, to pair your Smart Finder with your iPhone, iPod or iPad.
 - a. Press "P" button once on the Smart Finder to activate it. The red LED on the Smart Finder will start blinking once per second to indicate that it is ready for connection.
 - b. Once the Smart Finder is discovered, its LED blinks at a slow rate of once per 3 seconds. Press and hold the "P" button for 3 seconds to finalize pairing of the Smart Finder. A beep is sounded to confirm pairing success.
 - c. Press "+" button in the app to add additional Smart Finder tags.

Smart Finder app works on iPhone 4S/5/5C/5S, iPad 3/4/mini, iPod touch 5 or later versions.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference.
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
